Paul

It was my pleasure to host Simon. He really put forth an out-standing effort towards helping us get a very difficult job to run. He never displayed any frustration and remained supportive the entire installation and training. As you can see by the hours he logged, we put in some long ones last week. You have a very good person there.

The level of detail your company took in refurbishing this machine is very impressive. You can ask Simon but I'm the type to crawl under a machine now and then and did so under the Col-Tec. A very pleasant surprise to see the results of your efforts. I usually won't buy equipment without inspection nor would I contract for services of a company never visited, but you all exceeded my expectations. Please be sure to pass this along to the folks involved with the refurbishment.

Hi Jonathan

On behalf of Simon and myself, thank you for the courteous attention given to him while he was attending the installation. How are your operators getting along now that Simon has left and can I ask if the refurbished machine (early days I know) meets with your expectations?

Regards

Paul Bailey

### Recommendation for COL-TEC collators

To whom it may concerns.

We, CBE Co. Ltd., have supplied a complete collating solution from COL-TEC to our local market. The collator is fitted with automatic deep pile feeders and a booklet maker.

We have had total satisfaction with this machine, and our customer is happy because we have provided them with a machine which is easy to operate, reliable, safe and only requires minimum maintenance.

The collator, manufactured by COL-TEC, has always given optimal performance which resulted in high production rate for the customer.

We also got complete satisfaction from the support as well as training we got from COL-TEC team who are very professional and qualified.

From our very positive experience with COL-TEC we will not hesitate to recommend anyone to use their collators.

Yours faithfully,

Lawrence BOODHOO

Paul,

I must say that your collator can be classed as one of our best purchases.

It is solid and reliable and when time allows I will have to have you guys to give it a service.

Until then, kind regards

Andrew
